**AK4820 TANKER TECHNIQUES MAGAZINE  
ISSUE 04 DAMAGE INC.**

9€

Are you ready for the fourth issue of Tanker Techniques Magazine? The overwhelming worldwide success of our quarterly magazine has propelled us forward to the next issue. Aplytly named Damage Inc. the fourth issue showcases damage, and how master modelers recreate it utilizing a wide range of products and the latest techniques. As with all other issues, detailed explanations for the correct application of these effects are provided; the techniques presented in Tanker Techniques are universal, easily applied to other models, not just tanks. If you haven't already, start your collection now; create a library of useful techniques, and effects. Are you drawn to the technical side of our hobby? Are you secretly a rivet counter? If so, this is the must have magazine; each issue is packed with detailed information, galleries, interviews and more. You won't be disappointed!

The latest issue introduces techniques such as realistic and convincing damaged zimmerit, through to more extreme impact damage caused by missiles, mines, and shrapnel.

**AK2914 ACES HIGH MAGAZINE ISSUE 08 CAPTURED!**

9€

Issue eight is here! In this issue the Aces High team brings us a special theme, CAPTURED! The newest issue is dedicated to captured enemy aircraft put into service. As is always the case here at AK, using the latest techniques, Dani Zamarride shows us how to put an American P-51 Mustang into service with the German Army. Included in this issue are new sections such as a historical gallery, tips & tricks and many easy to do techniques. Another top hit release from the best aircraft modeling magazine!

The latest release of Aces High magazine showcases captured aircraft. We will look at an Iraqi SU-25 captured by the Iranian Army while escaping from the Gulf War, followed by a captured Fw-190 with American markings, and a First World War Pfalz D.IIIA captured by the British.

**AK148003 MIG-21 PFM**  
**DAYS OF GLORY AND OBLIVION**

49.95€

Always at the forefront of the modeling world, AK has gone somewhere no other model company has gone before; we are releasing a kit for both collectors and modelers alike. For the first time an abandoned aircraft! AK is proud to offer a Limited Edition release of an abandoned Mig-21. This kit is a breath of fresh air; an idea that dares to break away from the pack. This is a perfect model for those who want to build a Mig-21, and for those who want to collect a bit of modeling history.

After taking in the beautiful box art, inside you will find:  
Precise instructions,  
Photo-etched and Resin parts  
Decals

**DECALS FOR THREE PAINTING SCHEMES**

Have you always wanted to try and recreate a tired aircraft that through the flaked paint, flat tires, and overall weathered appearance tells a glorious story? This kit allows just that; make a version with flat tires, extremely weathered and discolored decals; or if that is not to your liking, opt for a more classic version and build an attractive Russian or German Mig-21 aircraft in its days of glory. High quality unassembled model kit for modelers aged 14 and up.

Contains plastic parts, photo-etched parts and decals. Requires glue, tools and paint to complete (not included). Pictorial assembly guide provides precise assembly instructions.

## AK895 MODELLING FULL AHEAD 2 NEW ORLEANS CLASS

17.95€

Modelling Full Ahead has become bigger; following the success of the first issue, Knox & Baleares Class we are now proud to present Modelling Full Ahead 2: New Orleans Class. Initially when we laid out Modelling Full Ahead, our goal was to condense the information required to successfully build one class of warship into 80 pages. However, as modelers, we all know that the full scope of our hobby that challenges us includes techniques, new innovative ideas, history and so much more. Therefore this cannot be achieved only with a monographic series. Be sure not to miss out on these special issues.

The first section is a walk through history; here you will find many inspiring, and some never seen before pictures. The second section is a learning manual; we roll up our sleeves and get down to the business of modeling. This section is a “visual delight” utilizing the most up to date techniques and materials.

**AK038 F.A.Q. 2 ENGLISH, THIRD EDITION!!**

**57€**

320 pages, more than 1500 color photographs.

The modeling world has spoken, and AK listened. First published four years ago, F.A.Q. became an overnight success, a bible of sorts, containing the most up to date military modeling techniques. Each and every edition ever printed has sold out very quickly. We are excited to offer a limited edition printing of F.A.Q. third edition for this Christmas. If you have missed out, here's your chance; or if you are not familiar with F.A.Q, don't miss out on this "must have" book that will give you the necessary skills to take your model building to the next level! F.A.Q. is well suited for beginners through to the most advanced modelers alike.

**AK150 F.A.Q. 2 SPANISH**

**57€**

**SECOND AND LAST EDITION!!**

320 pages, more than 1500 color photographs.

It turns out that there are a few Spanish speaking modelers who missed out on the first edition of F.A.Q. Consequently, due to pressure from the Spanish modelling community we are proud to release the second, and LAST, edition of F.A.Q. 2 Spanish Edition. F.A.Q. 2 sets the standard when it comes to reference books for our hobby; an up to date collection of modern modelling techniques, loaded with useful pictures demonstrating colour modulation, methods of chipping such as the lacquer and salt technique, how to correctly streak, the up to date method of working with tracks, how to make and apply mud, and dust. Included are methods for making small vignettes, terrain, and diorama composition. This book has been written by modelers, for modelers, don't miss out!

**AK276 AIRCRAFT SCALE MODELLING F.A.Q.**

**57€**

**THIRD EDITION!!**

380 pages, more than 2.500 images.

We can't believe it! We are already up to the third edition of the best guide for aircraft modelers. Aircraft Scale Modelling F.A.Q. is a compilation of aircraft scale modeling techniques; a step by step guide with hundreds of color pictures for WWI, WWII, Cold War and modern aircraft. Inside you will find a wide range of painting and weathering techniques. All aspects of aircraft modeling are covered in a way that is both easy to understand and follow. Nothing is left out, not even the pilot! Tools, materials and the correct usage, camouflage painting, markings, engines, and so much more! The techniques in F.A.Q. are explained from a beginner level, through to the most complex of tasks. Created by world famous modeler, Daniel Zamarbide, and aided by the most prominent aircraft modelers in Europe, make space on your shelf for this book!

## AK138 CHIPPING ESSENTIALS WEATHERING SET

11.40€

AK is proud to present the first weathering set dedicated to the art of chipping. Inside we have included some of our best selling weathering products such as: Worn Effects, Heavy Chipping, and our classic Chipping Color. Virtually any type of paint chip can be easily created. This is a truly universal set valuable to not only AFV modelers, but aircraft modelers, Sci-fi vehicles, trains and so much more. We have added a new product to this set, inside you will find Aluminium Chipping; a color perfect for replicating chips in paint that has been applied to aluminium surfaces. Don't make the common mistake that a lot of modelers make, that being the use of the same color for chipping effects. A paint chip on an airplane wing should not look the same as a paint chip from a tank, or any other AFV.

This set contains:

- AK088 Worn Effects
- AK089 Heavy Chipping
- AK711 Chipping Color
- AK139 Aluminium Chipping

CHIPPING ESSENTIAL USER GUIDE INCLUDED.
