

## AK 580 FAN SHAPE WEATHERING BRUSH

Specifically designed to fix, sweep and remove dry pigments. Also great for finishing oil-drag wood grain effects.

Place a little of dry pigment.

With the Fan Shape brush spread the pigment in the desired areas.

Blend the dry pigment in the surface with soft movements.

Remove the excess pigments softly and controlling the effect.

This brush is perfect for spreading pigments as it can be in seen in the smoky areas in our models.
